# **Energy performance certificate** (EPC)

FLAT 22 VICARAGE COURT 61 VICTORIA AVENUE BRISTOL BS5 9NH	Energy rating
Valid until 29 September 2030	Certificate number 1230-3221-2000-0631-0222
roperty type	Top-floor flat

### stal floor area

37 square metres

### iles on letting this property

pperties can be rented if they have an energy rating from A to E.

he property is rated F or G, it cannot be let, unless an exemption has been registered. You can read guidance for landlords of <u>regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-</u> dlord-guidance).

### nergy efficiency rating for this property

is property's current energy rating is C. It has the potential to be C.

### e how to improve this property's energy performance.

Score	Energy rating		Current	Potential
92+	Α			
31-91	B			
<b>)9-80</b>	С		791 <b>C</b>	791 <b>C</b>
<mark>;5-68</mark>	D			
9-54	E			
21-38		F		
-20		G		

e graph shows this property's current and potential energy efficiency.

operties are given a rating from A (most efficient) to G (least efficient).

operties are also given a score. The higher this number, the lower your carbon dioxide (CO2) emissions are likely to be.

e average energy rating and score for a property in England and Wales are D (60).

#### eakdown of property's energy performance

is section shows the energy performance for features of this property. The assessment does not consider the condition of a ature and how well it is working.

ch feature is assessed as one of the following:

- very good (most efficient)
- good
- average
- poor
- very poor (least efficient)

nen the description says 'assumed', it means that the feature could not be inspected and an assumption has been made base the property's age and type.

ature	Description	Rating
all	Cavity wall, as built, insulated (assumed)	Good
of	Pitched, 300 mm loft insulation	Very good
ndow	Fully double glazed	Good
ain heating	Boiler and radiators, mains gas	Good
ain heating control	Programmer, room thermostat and TRVs	Good
t water	From main system	Good
phting	Low energy lighting in all fixed outlets	Very good
or	(another dwelling below)	N/A
condary heating	None	N/A

### rimary energy use

e primary energy use for this property per year is 139 kilowatt hours per square metre (kWh/m2).

### What is primary energy use?

### vironmental impact of this property

e of the biggest contributors to climate change is carbon dioxide (CO2). The energy used for heating, lighting and power in c mes produces over a quarter of the UK's CO2 emissions.

n average household roduces	6 tonnes of CO2
his property produces	0.9 tonnes of CO2
his property's potential roduction	0.9 tonnes of CO2

making the <u>recommended changes</u>, you could reduce this property's CO2 emissions by 0.0 tonnes per year. This will help to tect the environment.

vironmental impact ratings are based on assumptions about average occupancy and energy use. They may not reflect how ergy is consumed by the people living at the property.

#### ow to improve this property's energy performance

e assessor did not make any recommendations for this property.

<u>imple Energy Advice has guidance on improving a property's</u> <u>nergy use. (https://www.simpleenergyadvice.org.uk/)</u>

### aying for energy improvements

id energy grants and ways to save energy in your home. (https://www.gov.uk/improve-energy-efficiency)

#### stimated energy use and potential savings

e estimated cost shows how much the average household would spend in this property for heating, lighting and hot water. It t based on how energy is used by the people living at the property.

e estimated saving is based on making all of the recommendations in how to improve this property's energy performance.

r advice on how to reduce your energy bills visit Simple Energy Advice (https://www.simpleenergyadvice.org.uk/).

## eating use in this property

ating a property usually makes up the majority of energy costs.

### stimated energy used to heat this property

### otential energy savings by installing insulation

e assessor did not find any opportunities to save energy by installing insulation in this property.

u might be able to receive <u>Renewable Heat Incentive payments (https://www.gov.uk/domestic-renewable-heat-incentive)</u>. This will lp to reduce carbon emissions by replacing your existing heating system with one that generates renewable heat. The timated energy required for space and water heating will form the basis of the payments.

#### ontacting the assessor and accreditation scheme

is EPC was created by a qualified energy assessor.

vou are unhappy about your property's energy assessment or certificate, you can complain to the assessor directly.

ou are still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

creditation schemes are appointed by the government to ensure that assessors are qualified to carry out EPC assessments.

### ssessor contact details

ssessor's name	Jonathan Reynolds
ephone	01934 249074

### ccreditation scheme contact details

ccreditation scheme	Elmhurst Energy Systems Ltd
ssessor ID	EES/021231
ephone	01455 883 250

### ssessment details

ssessor's declaration	No related party
ate of assessment	29 September 2020
ate of certificate	29 September 2020

#### ther certificates for this property

*vou* are aware of previous certificates for this property and they are not listed here, please contact us at <u>mhclg.digital-</u><u>rvices@communities.gov.uk</u>, or call our helpdesk on 020 3829 0748.

ere are no related certificates for this property.
