Energy performance certificate (EPC)

9a Townside Haddenham AYLESBURY HP17 8BG Energy rating

Valid until: 7 August 2033

Certificate number: 1737-7128-0200-0733-9206

Property type

Detached house

Total floor area

196 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance</u> for <u>landlords</u> on the <u>regulations</u> and <u>exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-quidance</u>).

Energy rating and score

This property's current energy rating is D. It has the potential to be C.

<u>See how to improve this property's energy efficiency.</u>

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, partial insulation (assumed)	Average
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, limited insulation (assumed)	Poor
Roof	Pitched, insulated (assumed)	Average
Roof	Roof room(s), ceiling insulated	Average
Window	Fully double glazed	Good
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	Low energy lighting in 64% of fixed outlets	Good
Floor	Solid, no insulation (assumed)	N/A
Floor	Solid, limited insulation (assumed)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 218 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

• Cavity fill is recommended

How this affects your energy bills

An average household would need to spend £3,785 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £1,102 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 21,912 kWh per year for heating
- 3,337 kWh per year for hot water

Impact on the environment	This property produces	7.5 tonnes of CO2
This property's current environmental impact rating is D. It has the potential to be C.	This property's potential production	4.3 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.	You could improve this property's CO2 emissions by making the suggested changes.	

Carbon emissions

An average household 6 tonnes of CO2 produces

This will help to protect the environment.

These ratings are based on assumptions about

average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Room-in-roof insulation	£1,500 - £2,700	£125
2. Cavity wall insulation	£500 - £1,500	£164
3. Floor insulation (solid floor)	£4,000 - £6,000	£192
4. Low energy lighting	£80	£66
5. Condensing boiler	£2,200 - £3,000	£423
6. Solar water heating	£4,000 - £6,000	£130

Step Typical installation cost Typical yearly saving

7. Solar photovoltaic panels £3.500 - £5.500

£676

Help paying for energy improvements

You might be able to get a grant from the Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgradescheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name **Robert Tompkins** Telephone 08007734828

Email info@cipropertymarketing.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Elmhurst Energy Systems Ltd

EES/022387 Assessor's ID Telephone 01455 883 250

Email enquiries@elmhurstenergy.co.uk
