

## Rules on letting this property

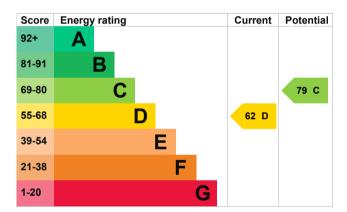

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<a href="https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance">https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</a>).

# **Energy rating and score**

This property's energy rating is D. It has the potential to be C.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, 250 mm loft insulation	Good
Window	Mostly double glazing	Good
Main heating	Electric underfloor heating	Average
Main heating control	Programmer and room thermostat	Average
Hot water	Electric immersion, off-peak	Very poor
Lighting	Low energy lighting in 44% of fixed outlets	Average
Floor	Solid, limited insulation (assumed)	N/A
Secondary heating	Room heaters, electric	N/A

### Primary energy use

The primary energy use for this property per year is 330 kilowatt hours per square metre (kWh/m2).

### How this affects your energy bills

An average household would need to spend £2,081 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £405 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### **Heating this property**

Estimated energy needed in this property is:

- 7,791 kWh per year for heating
- 2,010 kWh per year for hot water

Impact on the environment		This property produces	5.4 tonnes of CO2
This property's environmental impact rating is E. It has the potential to be D.		This property's potential production	3.6 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions		This will help to protect the	environment.
An average household produces	6 tonnes of CO2	These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts	

of energy.

living at the property may use different amounts

## Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Low energy lighting	£45	£56
2. Solar water heating	£4,000 - £6,000	£232
3. Heat recovery system for mixer showers	£585 - £725	£56
4. High performance external doors	£1,000	£60
5. Solar photovoltaic panels	£3,500 - £5,500	£595

### Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

### Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name Stuart Harrison Telephone 01189770690

Email epc@nichecom.co.uk

#### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Elmhurst Energy Systems Ltd

Assessor's ID EES/021901 Telephone 01455 883 250

Email enquiries@elmhurstenergy.co.uk
