Energy performance certificate (EPC)

1 Bishops Bridge Saxilby Road LINCOLN LN1 2BG	Energy rating	Valid until:	16 May 2034
		Certificate number:	2991-6128-3919 <u>)</u> -8791-3593
Property type	S	Semi-detache	d house
Total floor area	1	109 square m	etres

Rules on letting this property

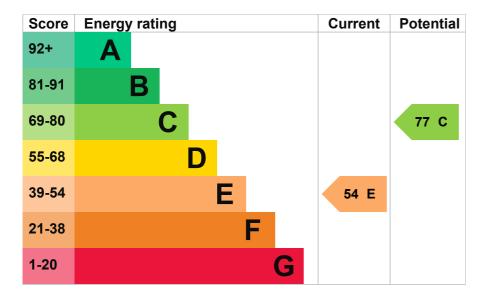

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standardlandlord-guidance).

Energy rating and score

This property's energy rating is E. It has the potential to be C.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Solid brick, as built, no insulation (assumed)	Very poor
Solid brick, as built, partial insulation (assumed)	Average
Cavity wall, filled cavity	Good
Pitched, 300 mm loft insulation	Very good
Flat, limited insulation (assumed)	Poor
Fully double glazed	Average
Boiler and radiators, oil	Average
Programmer, room thermostat and TRVs	Good
From main system	Average
Low energy lighting in all fixed outlets	Very good
Solid, no insulation (assumed)	N/A
Room heaters, electric	N/A
	Cavity wall, filled cavity Pitched, 300 mm loft insulation Flat, limited insulation (assumed) Fully double glazed Boiler and radiators, oil Programmer, room thermostat and TRVs From main system Low energy lighting in all fixed outlets Solid, no insulation (assumed)

Primary energy use

The primary energy use for this property per year is 239 kilowatt hours per square metre (kWh/m2).

About primary energy use

How this affects your energy bills

An average household would need to spend £1,831 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £555 per year if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 13,696 kWh per year for heating
- 3,742 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is E. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces

This property produces

6 tonnes of CO2

6.4 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

Do I need to follow these steps in order?

Step 1: Internal or external wall insulation

Typical installation cost	£4,000 - £14,000
Typical yearly saving	£394
Potential rating after completing step 1	64 D

Step 2: Floor insulation (solid floor)

Typical installation cost	£4,000 - £6,000
Typical yearly saving	£107
Potential rating after completing steps 1 and 2	67 D

Step 3: Solar water heating

Typical installation cost	£4,000 - £6,000
Typical yearly saving	£54
Potential rating after completing steps 1 to 3	69 C

Step 4: Solar photovoltaic panels, 2.5 kWp

Typical installation cost	£3,500 - £5,500
Typical yearly saving	£565
Potential rating after completing steps 1 to 4	77 C

Help paying for energy improvements

You might be able to get a grant from the Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Liam Calvert
Telephone	07455283580 🌙
Email	liam.calvert@yesenergysolutions.co.uk

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	ECMK
Assessor's ID	ECMK305660
Telephone	0333 123 1418 🌙
Email	info@ecmk.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	16 May 2024
Date of certificate	17 May 2024
Type of assessment	► <u>RdSAP</u>

Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at <u>dluhc.digital-services@levellingup.gov.uk</u> or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

 Certificate number
 2861-2111-4571-1455-2162 (/energy-certificate/2861-2111-4571-1455-2162)

 Valid until
 6 April 2032
