

# Energy performance certificate (EPC)

Sharpsmead Bickwell Valley SIDMOUTH EX10 8RF	Energy rating <b>D</b>	Valid until: <b>24 July 2033</b>
		Certificate number: <b>8800-3855-0322-6226-3373</b>

## Property type

Semi-detached house

## Total floor area

163 square metres

## Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

## Energy rating and score

This property's current energy rating is D. It has the potential to be C.

[See how to improve this property's energy efficiency.](#)

The graph shows this property's current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

### Breakdown of property's energy performance

## Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Wall	Timber frame, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, 250 mm loft insulation	Good
Roof	Roof room(s), insulated (assumed)	Good
Window	Partial double glazing	Poor
Main heating	Boiler and radiators, mains gas	Good

Feature	Description	Rating
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	No low energy lighting	Very poor
Floor	Suspended, no insulation (assumed)	N/A
Floor	Solid, insulated (assumed)	N/A
Secondary heating	Room heaters, wood logs	N/A

## Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO<sub>2</sub>. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Biomass secondary heating

## Primary energy use

The primary energy use for this property per year is 207 kilowatt hours per square metre (kWh/m<sup>2</sup>).

▶ [About primary energy use](#)

## Additional information

Additional information about this property:

- Cavity fill is recommended
- Dwelling has access issues for cavity wall insulation
- Dwelling may be exposed to wind-driven rain

### How this affects your energy bills

An average household would need to spend **£3,123 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £701 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

---

## Heating this property

Estimated energy needed in this property is:

- 18,442 kWh per year for heating
- 2,888 kWh per year for hot water

### Impact on the environment

This property's current environmental impact rating is D. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year. CO<sub>2</sub> harms the environment.

## Carbon emissions

### An average household produces

6 tonnes of CO<sub>2</sub>

---

### This property produces

5.4 tonnes of CO<sub>2</sub>

---

### This property's potential production

3.1 tonnes of CO<sub>2</sub>

---

You could improve this property's CO<sub>2</sub> emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

## Changes you could make

► [Do I need to follow these steps in order?](#)

---

### Step 1: Cavity wall insulation

Typical installation cost

£500 - £1,500

---

Typical yearly saving

£155

---

Potential rating after completing step 1

**65 D**

---

### Step 2: Floor insulation (suspended floor)

Typical installation cost

£800 - £1,200

---

Typical yearly saving

£164

---

Potential rating after completing steps 1 and 2

**67 D**

---

### Step 3: Low energy lighting

Typical installation cost

£95

---

Typical yearly saving

£169

---

Potential rating after completing steps 1 to 3

**69 C**

---

## Step 4: Solar water heating

Typical installation cost

£4,000 - £6,000

---

Typical yearly saving

£124

---

Potential rating after completing steps 1 to 4

70 C

---

## Step 5: Double glazed windows

Replace single glazed windows with low-E double glazed windows

Typical installation cost

£3,300 - £6,500

---

Typical yearly saving

£88

---

Potential rating after completing steps 1 to 5

71 C

---

## Step 6: Solar photovoltaic panels, 2.5 kWp

Typical installation cost

£3,500 - £5,500

---

Typical yearly saving

£735

---

Potential rating after completing steps 1 to 6

77 C

---

## Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

#### Assessor's name

Simon Heusen

---

#### Telephone

01395 578849

---

#### Email

[simon@aided-design.co.uk](mailto:simon@aided-design.co.uk)

---

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

#### Accreditation scheme

Elmhurst Energy Systems Ltd

---

#### Assessor's ID

EES/016788

---

#### Telephone

01455 883 250

---

#### Email

[enquiries@elmhurstenergy.co.uk](mailto:enquiries@elmhurstenergy.co.uk)

---

### About this assessment

#### Assessor's declaration

No related party

---

#### Date of assessment

25 July 2023

---

**Date of certificate**
