Energy performance certificate (EPC)			
18 Ongar Place ADDLESTONE KT15 1JF	Energy rating	Valid until:	26 November 2033
	-	Certificate number:	9320-2244-9390-2627-0225
roperty type Semi-detached house			
Total floor area	105 square metres		

Rules on letting this property

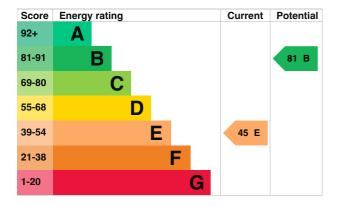

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's current energy rating is E. It has the potential to be B.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Wall	Cavity wall, filled cavity	Average
Roof	Pitched, 100 mm loft insulation	Average
Roof	Flat, no insulation (assumed)	Very poor
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, no room thermostat	Very poor
Hot water	From main system	Good
Lighting	Low energy lighting in 47% of fixed outlets	Good
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, dual fuel (mineral and wood)	N/A

Primary energy use

The primary energy use for this property per year is 355 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

• Cavity fill is recommended

How this affects your energy bills

An average household would need to spend £3,368 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £1,834 per year if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 15,650 kWh per year for heating
- 2,820 kWh per year for hot water

Impact on the environmer	nt	This property produces	6.8 tonnes of CO2	
This property's current environment It has the potential to be C.	al impact rating is F.	This property's potential production	2.0 tonnes of CO2	
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.		
Carbon emissions		These ratings are based on assumptions about average occupancy and energy use. People living at the		
An average household produces	6 tonnes of CO2	property may use different amounts of energy.		

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Flat roof or sloping ceiling insulation	£850 - £1,500	£369
2. Cavity wall insulation	£500 - £1,500	£358
3. Floor insulation (solid floor)	£4,000 - £6,000	£188
4. Low energy lighting	£40	£65
5. Heating controls (room thermostat and TRVs)	£350 - £450	£353
6. Condensing boiler	£2,200 - £3,000	£253
7. Solar water heating	£4,000 - £6,000	£118
8. Replacement glazing units	£1,000 - £1,400	£132
9. Solar photovoltaic panels	£3,500 - £5,500	£672

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Josef Holmes
Telephone	07779565554
Email	josef@360holmes.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/029187
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk
Email	enquiries@eimnurstenergy.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	24 November 2023
Date of certificate	27 November 2023
Type of assessment	RdSAP
